AI builder and full-stack engineer who ships AI and agentic products from idea to production: LLM apps, MCP tooling, and the full-stack systems and DevOps around them. Open-source proof on npm and external validation on Temporal's Code Exchange, with a day job owning an early-stage SaaS end to end.

Experience

Software Developer · Joomsy

05/2025 – present

Primary engineer at a five-person early-stage SaaS startup: full-stack product development plus the DevOps that runs it, design to deploy.

Customer Support Engineer · Wochit

10/2021 – present

Technical support for a cloud video editor at scale: reproduce, debug and resolve real users' rendering and workflow issues, and turn the feedback into product improvements with the development teams.

Selected Projects

MDP: Markdown to document and deck compiler on npm, with an MCP server and Claude Code and Codex plugins. barmoshe.github.io/mdp

apartment-hunter: full-stack apartment search app: listings, notes and statuses in one flow. Next.js, live on Vercel. apartment-hunter-one.vercel.app

MIDI GPT REST API: Node.js multi-step generation pipeline calling OpenAI, retries and validation at every step. github.com/barmoshe/AI_MIDI_API

Biome Synth: browser instrument with an AI DJ across five states; real-time React over Tone.js, Three.js and Canvas2D. biome-synth.lovable.app

entailer: TypeScript logic-validity toolkit, released to npm as one six-package toolkit with a docs site. github.com/barmoshe/entailer

Education

B.Sc. Computer Science

2020 – 2023

Afeka College of Engineering. Low-level assembly to .NET, operating systems, data structures, algorithms.

DevOps Workshop · Wix

Hands-on Amazon EKS, Kubernetes, Terraform, microservices.

Full-Stack Bootcamp · Coding Academy

Intensive 16-session course: Node.js, React, MongoDB.

Skills

Web: Node.js, React, Next.js, REST APIs, TypeScript, JavaScript

Data: PostgreSQL, MongoDB, Redis

AI: LLM apps, MCP servers, agents and evals, Claude Code and Codex plugins

DevOps: AWS, Docker, Kubernetes, Terraform, CI/CD

Languages: TypeScript, JavaScript, Python, Go, C#
